How I got this and similar records is too farout to go into now when the CIA is still stobewalling the JFK materials.

Part of this story has been told, but never in content. Maybe one of your friends would like to do a definitive Sunday piece? What this record clears up for me ~~now~~ is how long the FBI sat on this before it used it against the CIA.

DeLoach did it. He convinced LBJ that the CIA was part of a conspiracy to kill JFK. This is what LBJ had in mind when he ~~kxdx~~ blabbed to Cronkite and then asked to have edited out. I have the DeLoach memos.

Note that the CIA did not withhold names that could have been withheld. Maybe for a reason?

The timing on unloading on LBJ - it coincides with the extensive controversy 15 years ago.

If anyone is interested, I'll help all I can. I do have a good file.

Good luck on your move.

Best wishes,
